

# Campus Cleanliness Rating System

## Campus Cleanliness Rating System

This system allows each class to easily determine the cleanliness status of their assigned areas and simplifies the rating process for the student leaders. It also reduces the chances of human error. Compared to the previous paper-based rating system, it saves a significant amount of paper and contributes to achieving the goal of environmental sustainability.

## Main Functions:

1. Online rating system for evaluators to conduct assessments.
2. View the assigned cleaning areas for each class.
3. Check the cleanliness status of each cleaning area.
4. Announcements and notices from the Sanitation Department.
