

中壢高商園遊會預購網站

-預見美好，購享快樂-

製作原因:

每年5月學校都會舉辦園遊會，但5月的天氣非常的不穩定，為了讓參加園遊會的人能夠擁有更好的體驗於是本組選擇製作預購系統方便您提前購買各式園遊會商品，讓您輕鬆享受當天活動的樂趣。

網站功能:

買家使用本網站時可以預先找到自己在園遊會想買的物品並預先購買，而賣家使用本網站時可以在園遊會前將商品上傳至本網站並附上照片和介紹文字，在正式開張後也可以使用本網站確認訂單是否已經完成、顧客是否繳錢以確保餐可以準時完成。

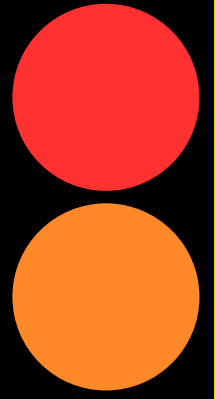

結論:

本網站利至於將園遊會變得更加便利及輕鬆，為了達成此目的我組不但將該網站設計成手機及PC端都能使用的樣式，還讓賣家可以隨時查看訂單以確保收錢和出單的完成，最後買家使用本網站時不僅能夠預購還能確認自己的訂單是否完成。

FAIR PRE-ORDER WEBSITE

-預見美好，購享快樂-

Reason for production:

Every May, the school hosts a fair, but the weather in May is very unpredictable. To provide a better experience for those attending the fair, we have chosen to create a preorder system that allows you to purchase various fair items in advance, making it easier for you to enjoy the event on the day.

Website features:

When buyers use this website, they can find and purchase items they want from the fair in advance. Sellers can use this website to upload their products with photos and descriptions before the fair starts. After the fair opens, they can also use this website to confirm if orders have been completed and if customers have paid, ensuring that meals can be prepared on time.

In conclusion:

This website helps make garden parties more convenient and easier. To achieve this goal, our team not only designed the website to be usable on mobile phones and PCs, but also allows sellers to check orders at any time to ensure payment collection and delivery. After the order is completed, the final buyer can not only pre-order but also confirm whether his order is completed when using this website.
