

# Mother of lands

423 20 羅志恩

423 21 古清雅

423 34 葉安喻

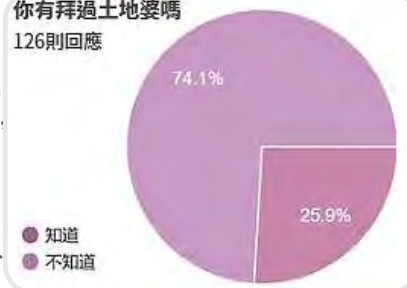

## Purpose :

The report pointed out that the Earth Goddess is not very popular among the people, but nearly 1/3 of the temples in Taoyuan still worship the Earth Goddess. Therefore, this group hopes to promote the culture of the Earth Goddess through games and introductions. At the same time, we also hope to eliminate all forms of discrimination against women, both in real life and in culture.

The reasons for the low rate of worship of the Goddess of Land may be gender cultural factors, scarce documentary records, temple space and image settings, weakening functions in modern society, insufficient religious education and publicity, etc., which make people feel unfamiliar with the Goddess of Land.
